

Service	Turku Campus	Academic non-profit organizations	Companies
<b>Protein identification by MS (for gel separated samples*)</b> Includes MS analysis and a database search			
LC-MS/MS <sup>1)</sup> - without digestion	Set-up fee 113 € Sample 73 €	Set-up fee 125 € Sample 125 €	
LC-MS/MS <sup>1)</sup> - including digestion	Set-up fee 185 € Sample 86 €	Set-up fee 320 € Sample 160 €	Set-up fee 400€ Sample 240 €
<b>Protein identification by MS (soluble sample)<sup>2)</sup></b> Includes in-solution digestion, MS analysis and a database search			
	Set-up fee 185 € Sample 111 €	Set-up fee 300 € Sample 200 €	Set-up fee 350 € Sample 300 €
<b>Protein identification by MS (soluble sample in MS incompatible solution)</b> Includes sample preparation by a FASP method, MS analysis and a database search			
	Set-up fee 214 € Sample 123 €	Set-up fee 320 € Sample 200 €	Set-up fee 350 € Sample 320 €
<b>Protein identification by MS (proteins bound on magnetic beads)</b> Includes on-beads digestion, MS analysis and a database search			
	Set-up fee 185 € Sample 111 €	Set-up fee 300€ Sample 200 €	Set-up fee 350 € Sample 300 €
<b>Phosphoprotein analysis by MS (low complexity samples)</b> Including in-gel digestion, TiO <sub>2</sub> enrichment, desalting, MS and database search			
LC-MS/MS <sup>1)</sup>	Set-up fee 214 € Sample 112 €	Set-up fee 250€ Sample 250 €	Set-up fee 440 € Sample 360 €
If you have other samples, please inquire price first			
<b>Other services</b>			
Protein size determination by ESI	Set-up fee 185 € Sample 95 €	Set-up fee 200 € Sample 150 €	Set-up fee 250€ Sample 200 €
Protein quantification by label-free DDA or DIA methods	Pricing according to instrument time, complexity of the sample and data analysis requirements. Please consult the facility for detailed pricing.		
Targeted protein quantification by SRM or PRM			
Large-scale proteomics projects			
Bioinformatics, user training (instruments & software) & consulting			

**Prices do not include VAT**

\*1) Maximum size for a gel piece per sample is 0.5 x 1 cm.

<sup>1)</sup> LC/ESI-MS/MS includes 1 hour instrument time. There will be an extra charge if customer wants a longer method to be used.

<sup>2)</sup> Samples need to be in MS compatible solution.

Please check the pricing guidelines on our website: <https://bioscience.fi/services/proteomics/pricing/>
